

BOYERTOWN AREA SCHOOL DISTRICT

STUDENT REGISTRATION

Welcome to the Boyertown Area School District. If you are new to the district or if you are the parent/guardian of a school-age child, the Boyertown Area School District uses an online registration, Infinite Campus, for all new and returning student registrations to collect student demographic, emergency, and medical information. The system is a secure and green process, which allows the district to quickly obtain up-to-date information on your child. The online registration structure will also allow you to electronically sign the annual permission forms for school district policies such as the Technology Use Policy, School Handbooks, and other items collected on an annual basis. This online process replaces all the hard copy student registration and other forms used in previous years.

Parents and/or legal guardians of new students **will need an active email account (that is checked regularly) to access and use the online registration system.** This email account will also be used for important communication updates from Boyertown Area School District and your child's school. For help in obtaining a free email account, there is a link on the Boyertown Area School District website, www.boyertownasd.org. This can be found on the Boyertown Area School District student registration page with other valuable information.

The 2024-2025 school year kindergarten registration is available to any resident with a child who will reach 5 years of age on or before September 1, 2024.

The following items are needed as part of the student registration process and as a convenience can be uploaded to the online registration application, emailed, faxed, or brought to the Boyertown Area School District Education Center after the student's online registration application has been completed. The ability to upload these and other supporting documents is available to you during the registration process.

PROOF OF RESIDENCY:

Two forms of official documentation that prove your district residency. The documentation must show the parent/legal guardian's name and physical street address. Please note that an agreement of sale ***does not*** prove residency and is ***not*** acceptable proof of residency. Refer to the **Residence Verification** form on the District Registration page for BASD-accepted proofs of residency.

PROOF OF AGE:

A copy of the **original State sealed birth certificate**. We will also accept a baptismal certificate, passport, or notarized hospital verification if the original documentation has an official seal. Please note we do not accept souvenir certificates that are provided by the hospitals. If you need to obtain another birth certificate from the Division of Vital Records and have access to a computer, you can request a new birth certificate by accessing the following website:
www.dsf.health.state.pa.us/health/site/

IMMUNIZATION RECORDS:

A copy of your child's **complete** immunization record. A list of the required immunizations can be found on the following website:
<http://www.health.pa.gov/My%20Health/Immunizations/School/Pages/default.aspx#.VkzLkMYo5RD>. If your child has not reached age 5 and will be receiving additional immunizations at the scheduled physical appointment, please provide verification from a physician of those received to date. An updated list can be provided later for those received at your child's five-year physical appointment.

Students entering kindergarten are required to have a physical and dental examination. These exams must be completed after **September 1, 2023**, and returned to the school nurse no later than **September 15, 2024**.

Please contact the Student Registration Office if you have any questions or concerns.

No. All children should be registered on one registration application.

Much of the information is basic family information that you may know, like birth dates, phone numbers, etc. You will also need previous school information, names and phone numbers of adults authorized to pick your student up, custody information, copies of immunizations on physician forms, birth certificates, and residency verification. Once you have entered all the required information, you will be able to submit the application through Infinite Campus OLR to the Boyertown Area School District for review. ***If you are not given the option to submit the registration application, you will need to go back and make sure all required fields are complete. You will not be able to submit an incomplete registration application.***

Please note: All supporting documentation can be uploaded to the registration application before submission. This will enable the student registration to be processed more efficiently and without further delays.

Any changes after the online registration application has been submitted will need to be made by the Boyertown Area School District staff. Please email the Student Registration Office at basdregistration@boyertownasd.org with any changes.

No. You will receive an email confirmation from the registration office indicating if there are missing items or if the student's registration application is being processed.

How can I check the status of my child's submitted registration?

You will receive an email once your child's registration application has been reviewed.
